- Recommended Task Lists

BONUS

- One Week of Go-Live Support
- Project Management

**See limitations on the next page.*

LIMITATIONS

- *This is only appropriate for customers with 5 or less office workers.*
- *To qualify for this deal, you must use the pre-setup Item, Cost Codes and Task lists that we will provide. These may be modified by you after the implementation or with help from us for an extra fee.*
- *It is expected that we work with 1-2 decision makers, and they are the same people throughout.*
- *Setup is expected to be 4 remote sessions and is limited to 8 remote sessions. Any more sessions will be extra:*
 - *There are help files and videos you should watch before each session.*
 - *This does not include Upgrades and Extras (color chart) or After-Sales Service.*
- *Training is limited to four 2-hour sessions. Any more sessions will be extra.*
- *Basic Master Record import includes the following imports that must be formatted by the customer to a template provided by Suite Engine. If any field is too long, it will automatically be truncated:*
 - *Chart of Accounts*
 - *Vendors*
 - *Customer and Contacts (Home Buyers)*
- *Phase, Models, Lots, including take-offs, house area etc. to be entered manually.*
- *Open entry financial import includes three imports that must be formatted by the customer to a template provided by Suite Engine. If there is any mapping from old codes to new, this is to be handled by the customer:*
 - *Open AP*
 - *Open Bank Ledgers*
 - *Open GL*
- *No customization or special reports are included in this package.*
